The Layers Panel is where you'll most often work, so it's where you'll begin. You start out by clicking on the Layers Panel and then clicking on the Add Layer button. ### What's New in the Adobe Photoshop 2022 (version 23)?

YouTube's new college football ad campaign was focused on North Carolina and Duke and aired in parts of the Central Coast, the Southeastern and the Southcentral. The list of markets ran between North Carolina and the Southwest. Throwing out the results on the heels of the ACC's decision to shift the conference playoff games to January, it's an interesting choice to move NC State, a team that was once a top ACC performer, to the bottom of the list. The move dropped Michigan off the schedule for the first time since 2004. If nothing else, you can credit the Wolverines for having new Nike uniforms and sticking with the NCAA's color restriction. Based on the reaction, it might be best to give Michigan a pass on last year's off-field issues. It's the basketball team that has Michigan fans interested. It's unclear what the reaction would have been if there had been a quality opponent available. Perhaps, though, it's best to let the Wolverines play the game, rather than canceling it for any one reason. After all, there's a lot on the line at the end of the year in the Big Ten, as well. Three of the top seven are out of the Big Ten, so there are some terrific matchups on the schedule. Michigan can't afford to make another mistake like it did to Ohio State. The Wolverines are coming off a home loss to Nebraska, a team it soundly defeated at the Carrier Dome in November. They lost four games by seven points or fewer to end last year. This year they'll match up with Michigan State in a game that could be for the Big Ten title. As long as these spots aren't used for flimsy, politically correct reasons, the marketing in-season makes sense. It's a shame the approach becomes the focus when the season is a big success. If they want to change it up, fine. Or they could honor game cancellations by not having anything on special message after a win or loss. Either way, perhaps we're looking at a trend that could continue. Last year, there were several comments about how students would be disproportionately impacted by the cancellation of games. This year, college athletics will be getting notice that they're disproportionately impacting business. About two-thirds of Internet users
