Technical support 8. Flexible template 9. 3D bill collection chart When your customers pay you money, it's the most important thing that keeps you in business. You understand that, but you need a way to easily track and manage your clients. At the same time, you want to make sure that you get paid promptly and accurately so that you can spend your money where it matters most, your business. Invoices and bills can be complicated, and at times, they become a pain in the neck. MoneyBasket is designed to save you from that headache by helping you: ♦ Track, organize, and pay your clients. ♦ Manage your accounts receivable and payables. ♦ Establish your accounts payable as a fast, accurate, and easy process. ♦ Show your business some new ways to make your money. You also have the option to create documents that you can send to your clients, along with a free logo design service. This software is more of a tool that you can use to help you manage your business. Of course, it's meant to save time and make your life easier. How Does MoneyBasket Work? There are three parts to MoneyBasket: 1. Your Client Account - This is a simple system of records. Simply enter the name and address of your client, and the company that they work for. Once this is done, it will only take a few easy steps to set up your accounts receivable and payables. 2. Your Invoices - This is the billing system of your business. With MoneyBasket, you will be able to set up all of the basic and the advanced features for your invoices. You will need
