About e878091efe e878091efe is just your average joe with a passion for rock climbing. He enjoys going for brekky runs on the vert ramp and playing video games which include FIFA 14 and Splatoon. When not working on this site he can be found enjoying the sunsets of rural New South Wales, or playing some sunday league footy with his footy team. Music: Erlang webservice not reading my static content I'm trying to deploy my erlang webservice from source (when I do ls it shows me the files from the lib directory for example if I do ls lib/app.hrl it shows me app.hrl I was under the impression that erlang compiled it to the right file so I uploaded my app.hrl to /var/www/example.com/lib/ and done a restart and it still didn't work and tried to add :mnesia_libdir/bin to my.bashrc but didn't do anything. I don't understand what I'm doing wrong and the problem is I can't even see what's wrong with my code because I can't even access it with curl. I've been looking at this doc without any luck. Thanks in advance. A: Adding this line to /etc/mnesia.conf works. dir = /data/nodes/0/mnesia/main What is puzzling me is that it was not at the top. + 2 6 . L e t k b e s (- 1 4) . Download F1 2011 PC Full Version. The effect of the administration of levodopa/carbidopa in the immediate, short-term, and long-term clinical outcomes of patients with advanced Parkinson disease. The effect of the administration of levodopa/carbidopa (l-dopa/carbidopa) on the clinical outcomes of patients with advanced Parkinson disease was examined in 3 studies. Patients were enrolled in each study at a single visit and received the same patient-controlled therapy (infusion of l-dopa/carbidopa 100/25 mg) and doses of other neuroleptic drugs were adjusted to maintain the same dopamine agonist dosage. In the short-term (10 weeks), the administration of l-dopa/carbidopa led to significant improvement in scores on the motor and nonmotor sections of the Unified Parkinson's Disease Rating Scale (UPDRS) and the Schwab and England Activities of Daily Living (SEADL) Scale. The antiparkinsonian activity of l-dopa/carbidopa was not sustained in the long-term (7 months). Patients exhibited a significant, persistent decline in scores on the UPDRS and the SEADL. News Speaker Boehner's Budget 'Plan' Would Cut Funding for Treatment for Sick Children TAMPA, Fla. – On the heels of a report released today revealing that House Speaker John Boehner's 2013 budget plan would cut funding for health care at the same time that it would increase funding for the Pentagon, a new analysis shows that Boehner's budget plan actually reduces funding for Medicaid, a government health care program that covers low-income kids with pre-existing health conditions. "House Speaker Boehner's budget plan would cut \$9 billion from Medicaid, a program that covers over 9 million children," said Florida Health Care Coalition Executive Director Marc Smith. "Reducing Medicaid is a big mistake and we need to keep working with President Obama and other members of Congress to stop this harmful proposal." In a new report released today, the Florida Health Care Coalition (FHCC) detailed that Boehner's 2013 budget plan would cut \$9 billion from Medicaid 3e33713323
