For those who think that the most important thing when betting is the choosing, perhaps OddzBreaker is for you. OddzBreaker has been designed to suit the most demanding customers, allowing you to quickly pick the best bets and place them at the most favorable price. It is designed to be used by the more active users who place their bets with maximum precision, as it is a light, fast and effective application. It is fully functional, not only as a betting application, but also as a simple BetFair tool. Its speed makes it the ideal solution for those who bet against the Betfair. OddzBreaker is a simple, interactive betting application that allows you to get the best possible exchange rate. It was written with speed and simplicity in mind. The interface and the speed will surprise you. On your screen, you will find a picture of the algorithm you will use, and then you will see your options by category. Just choose the strategy and click on 'Send'. All the main parameters of the bets will be displayed and at the end of the process you will receive the exchange rate. The application works with the exchange of all kinds of bets, percentages, market bets, but also with roulette or blackjack bets. Also, it allows the interactive betting. All you need to do is highlight what you want to bet, and then click on 'Bet'. You will then have the opportunity to pick your favourite strategy and place bets in an interactive mode. And in case you are interested in paid bets and option bets, you can have an exact balance. Furthermore, there is a simulation mode. It allows you to try a strategy without using real money. In case you want to develop a new betting strategy in the future, you can use the algorithm of OddzBreaker as a basis. Of course, you can choose the algorithm you want and create a new one. You will have the possibility to predict the direction of the market and place bets with even greater precision and control. OddzBreaker For Android is fast, elegant and fully functional.
