Generating and handling business papers usually requires some specialized software solution, especially when it comes to certain types of papers. Transactions and payments, for instance, can, in many cases, require some particular forms to be filled and there are many other examples that follow the same pattern. Applications like Quotations and Invoices LITE try to make things easier and facilitate the management of such documents. Quite easy to install and to use, this utility includes all the necessary tools for creating, viewing and editing quotes and bills for the products and services offered by your business. Before opening the module that deals with the financial papers, you might want to head on to the dedicated area and customize the business details that will be used throughout the application. Once this is done, you can start adding quotations and invoices from the corresponding area of the program. An important mention that has to be made concerns the starting number of the invoices that you will configure at the first run, this value cannot be changed once you save it, so it pays to be extra careful if you don't want to have the initial document labeled as anything else but the first. Adding new quotations and deleting existing ones can be done with a single mouse click and there is also an interesting feature that allows you to turn them into invoices on the spot. Viewing the bills, payments, including the ones owed by the customers is really simple, thanks to the special reporting functions built-in Quotations and Invoices LITE. All things considered, this software comes with a decent set of tools and is easy to work with. The customizable documents can be managed from a simple interface and the reports that can be generated add further value to Quotations and Invoices LITE. Download Quotations and Invoices LITE You may use this Software for Personal use only. All software copyright (C) by Nambari. The software will download to your computer without installing. Just run the program and click the download button. Your document will be saved on your computer ready for viewing and editing. Quotations and Invoices LITE is a set of tools that facilitate the creation, editing and managing of business documents like quotes, invoices, bills and payments. The software is completely free of charge and easy to install and configure. A great help for small businesses Nov 05, 2017 NeilVerified Buyer It is easy to use and very informative. I highly recommend this app to those looking to implement Quickbooks. You get the advantages of a fully-featured accounting program without the price tag. This app integrates well with Quickbooks Online, so you don't have to do any "drilling" to get it to work. It is very easy to get this application up and running and the folks who helped us with set it up were very accommodating and responsive. It is very easy to keep track of income and expenses and even book some sales and then generate a summary report for each period. It has a full-featured excel-like interface. The ability to create and generate reports is an added bonus. The ability to export your data to Excel is also helpful. The only drawback is that some of the functions, like the ability to modify accounts, appear to require the current version of Quickbooks. For $20 a month you get a lot more than most small businesses need. You don't need a degree in accounting to use this program.
