Playable by all NES emulators. The original NES port of GopherQuest was made by CodeMasters, the publisher and developer behind many NES games, including Contra II, Xevious, Frogger, Ghostbusters, etc. Since then, many clones and remakes of it were made, such as EMU and Nes-Mapper, or RetroNES and the RetroNes project that I am involved in.

However, I have decided to continue developing my own clone, with the resources of the RetroNes project, and I am pleased to announce the release of GopherQuest with my own project: RetroNes GopherQuest, a functional and fully-working NES emulator. Of course, I don't intend to stop there. I will keep developing it and add new features and functionality, including gameplay improvement, bug fixes and performance improvement.
