"Scorbicin A, a new antiallergic agent, enhances the production of chemotactic factors by human polymorphonuclear leukocytes in vitro. We have found that the production of the inflammatory chemotactic factors interleukin-8 (IL-8) and leukotriene B4 (LTB4) by human polymorphonuclear leukocytes (PMNs) is augmented by the addition of Scorbicin A, a nitroso compound, a kind of antiallergic agents. In order to confirm this enhancement, IL-8 and LTB4 production by PMNs were investigated by measuring the amounts of IL-8 and LTB4 in the culture supernatants of stimulated PMNs by using ELISA. Simultaneously, we examined whether Sc
