Cerebral protein S deficiency in a hypercoagulable state and multiple coronary thrombi. An adult patient with cerebral protein S deficiency and multiple ischemic events is described. Thrombophilia screening revealed a hypercoagulable state, including prolonged activated partial thromboplastin time, hyperhomocysteinemia, and elevated anticardiolipin antibodies. Intracerebral angiography showed multiple microvascular occlusions in the periventricular white matter, indicating thrombi in leptomeningeal arteries. It was not possible to detect protein S deficiency in plasma, because the patient was in the hypercoagulable state. Unexpectedly, cerebral tissue extracts contained normal amounts of protein S. Although only a fraction of protein S is present in plasma, it is conceivable that, in the brain, protein S may represent an important cofactor for intravascular thrombosis.The epidemiology of suicidality among college students. A revised version of the proposed Diagnostic Interview Schedule (DIS) for the study of Suicide and Self-Injury was used in the first large sample study of suicide attempts on college campuses. All students entering a typical southern state university during the fall of 1989 were approached for participation. Students who met the following inclusion criteria were enrolled: no suicide attempt during the previous 12 months, ability to respond to self-report and interviewer interview. Among 1,553 students who completed the baseline interview, the prevalence of attempted suicide among those reporting abuse of alcohol or drugs in the month prior to the interview was 6.7% (95% confidence interval [CI], 4.7-8.7%). Of all attempts, 76.1% involved a family member or friend, 14.1% a physician or other health professional, 4.8% a law enforcement agency, and 4.7% a stranger. With respect to intentions, 95% of attempts were infrequent (3 times in the month) or rare (4 times or more). However, by self-report, 5.6% (95% CI, 3.6-7.6%) of all college students had attempted suicide during the year prior to the interview. The authors describe the epidemiology and treatment implications of suicide attempt among college students.Q: How to select the color of a theme in Android Studio?
