Features of FIFA 22: New Controls: The new controls in FIFA 22 bring the ball into play, allowing players to dribble and pass the ball with ease. Players can freely move and control the ball on the pitch with natural ball control, including passing and one-touch passing. Picking up the ball from the floor is also designed to feel more intuitive and accurate. New Player Abilities: New Running and Agility Moves: Players can use new jumping and sprinting abilities in FIFA 22 to get more distance on the ball and escape pressure. Players can now jump to change the direction of their pass and run at full speed and pull off acrobatic moves as they receive and pass the ball. New Free Kicks: Players can use the new Free Kick functionality in FIFA 22 to score with a quick tap of the B Button or a set-up while in mid-air to land the ball in a defined spot on the pitch. New Defending: Interactions such as defending players taking the ball down and winning the ball back are all designed to feel more realistic. Players can now press and slide the right stick to get rid of the ball by anticipating the opponents intent. Improved Player Abilities: Players can now dribble and pass with greater speed and control. Players can now jump and close gaps in faster and more realistic ways. Players can now make precise angled passes and lofted, diving headers. New Character Creation: Intuitive character creation is now easier than ever. Player options can be fully customized with new hair styles, shirt styles and colour options. New customization options include tattoos, facial hair, headgear and coloured gloves. Players can further customize their looks with hundreds of different combinations of these options. The Mix & Match Screen: FIFA 22 introduces the All-New Mix & Match Screen, allowing players to compare multiple profiles side by side. The All-New Mix & Match Screen is designed to help players create unique players. Improved Tactics: Players can now perform more tactical actions in game. New actions such as tucking in and backwards blocking are all designed to provide more versatile, natural gameplay. Improved Ball Physics: FIFA 22 introduces hyper-realistic ball physics to deliver a more authentic experience when playing in matches. Players can dribble with greater speed and

FIFA is a series of sports video games that allow players to take control of their favorite football team in authentic gameplay with the most realistic transfer market. Players can develop and manage their player, choosing from more than 150 real players. Players take part in real world leagues, including English Premier League, La Liga, Serie A, and German Bundesliga. FIFA has been at the forefront of sports video games since its inception. All the gameplay features you can experience in the best-selling franchise have been completely re-imagined in FIFA 22. You'll feel the weight of every touch, every tackle, and every bounce and flight off the ball as you fully immerse yourself in the world of football. **New Features:** The FIFA squad builder - There are more than 120 new players to choose from and use in gameplay, either as a single player in Career Mode or in Multiplayer matches. We also updated the Squad Viewer to make it easier for you to build and manage your team in-game. With many more series of cards to unlock than ever before, build your dream team and start playing in the next fixture. Improved ball physics - The ball's aerodynamic properties have been further improved, allowing you to make more precise passes and combine with players in dynamic ways. Blending of the Real and Virtual Worlds - In FIFA the Tactical Offside rule can be used in real world games using a marker on the field and a penalty kick in the same game. Along with this, new defensive match settings allow for a smaller offside distance, placing emphasis on quick one-on-one attacking. With these new settings, the best gameplay features that make FUT Champions feel like a distinct experience are now available to FUT, allowing for a smoother transition to the new FUT. FIFA Ultimate Team card packs - The most-sought after FIFA card packs now contain exclusive premium player and squad cards to build your dream team with. We also added an online system so you can now collect card pack rewards like scouting points that give you more exclusive cards. Worldwide update - We have added clubs that will appear in FIFA 22 from countries all over the world, including Japan, USA, Mexico and Taiwan. Expanded The Journey - There are many more rewards to discover and unlock in this season than ever before. You will be rewarded with items like FUT packs, player cards, and player and squad development boosts depending on
