What's new in Elden Ring:

'The next installment of Ancestral Games' Fantasy & Role-Playing Games, Elden Ring Tarnished, features the battle of a new race, new spells, new abilities, a new class on top of the standard classes. The story, love, and dynamics of fantasy are rooted in myth, a mysterious and cool land of legend. After the loss of the Elden Ring, the wishes of humanity can no longer be met. The weak, unbound people first have to rise up and regain strength in order to meet their destiny. With everything what we're making today, we want to create something nice and polished. Our team really works very hard together. Through the provided server tests, we have tried to make more graphical and sound effects available to our players. The name of our game is Elden Ring Tarnished, so we worked hard on giving the game a darker edge and soul compared to its predecessors. With every setting we've decided to create new things; a new class, a new race, and even a new weapon. The story of Elden Ring Tarnished follows the tale of a new race. The Elden came out of the ashes of the burnt lands in which cities and creatures had to start anew. The races are also headed toward extinction; for example if they are not strong enough, they will become extinct. We want to create a game which is fun for everyone, whether you're a hardcore fantasy monster

hunter, or just the person who likes to hang out with friends and play games. (via Fantasy MMORPG
