I want to get all the tweets mentioning my Twitter account on my application like Twitter provides its searching functionality. How can I achieve this? I have read the Twitter API documentation but it doesn't have any relevant information. Can you please suggest me any efficient and easy way to get all the tweets mentioning my twitter account? A: For simple search, I'd have a look at the Twitter Search API. From there, it's just a matter of giving it a search query that looks
