### Zwei: The Ilvard Insurrection [Mac/Win]

Eliminating Dragons is a roleplaying adventure for 5th Edition, Dragonlance, Forgotten Realms, and World of Darkness, set in the lands of Faerûn, home to humankind, elves, halflings, dwarves, and more. Your band of heroes, with their diverse backgrounds and skills, are called in to find something special. The only thing they know for sure is that the most well known type of dragon is extinct. You can expect the odd trifle here and there, but this adventure is about the big stuff -- monsters, treasure, and NPC's as well. This is high risk, high reward, and the kind of adventure to draw your suckers in! Keywords: dragonlance fae world of darkness 5e 1 to 5 Player Accessories: Sheaf of Thoughts: A map of Westera with the earth colors marked in. As with the Terrinoth maps, you can put any location anywhere on the map. Westera is a large area and few people seem to know where to look. The players should not know where they are going in advance to this point, and can be surprised where they find themselves. Sheaf of Thoughts Characters Sheet: A character sheet based on the essential skills of the Campaign Setting recommended by Chris Perkins and Marty Halpern. Fey Basic Spells Fey Spell Sheet, Creativity, Detect Magic, Hypnotism, Performance, Poison. Human Basic Spells Human Spell Sheet Dungeoneer Fitness Minor Illusion, Mage Hand, Silent Image, Web. Adventure: After a campaign or career, the heroes have gone their separate ways. Some of them have returned home. Others continue their adventuring on their own. The heroes have heard a rumor that something amazing might be waiting for them in a well-known zone. It sounds too good to be true. You may have to convince them, or perhaps you can take them on yourself. ----- -Playing Game: You are playing "2V Hoverbike" as Fly! Fly around the city to destroy the enemy cities and build up your own city. Be careful of the gates and giant lawn mower, they may destroy everything. Only the city of your opponents will be able to save them from your strikes. To build a city and a fountain you need to collect sand, grass, coal and air. -Time Attack Use your cannon to shoot as fast as you can. The longer you fly the more points you will get. Be careful, the lawn mower is coming. -Difficulty: Can you beat the time limit without allowing the lawn mower to get to your city? -Modes: There are five different modes. Hoverbike - right now is the only one available. ----- -Controls: The controls are quite simple but might be hard to use at first. Use the WASD keys to move around the map. Keys 1, 2, 3 and 4 will allow you to fly up, down, left and right respectively. The keys L and K are for shooting. The keys spacebar and enter on the keyboard will allow you to select options and to quit the game. -Graphics: The graphics of "2V Hoverbike" are somewhat similar to Mario Kart. -How to play: Input controls required: The game can be controlled with joystick or with keyboard. -Difficulty of Controls: I found the controls to be easy enough. -Music: There is no music in the game. -Recommend: My Opinion: My opinion is that the game is okay, I've never beaten the time limit. But the fact that it is only one player, I don't really recommend that one. It's a bit too easy for one player. -How to play with keyboard: First you should plug the joysticks or you can try to use another kind of gamepad as well. You need to use the same keys in order to use the keyboard: keys 1, 2, 3 and 4 will allow you to move the vehicle, spacebar or enter in the game, the L and K keys for the cannon and the shield. I don't think there's anything to be done about this issue. -Gameplay: Gameplay consists of driving the car, using your shield and shooting
