5/5! I understand that this game is old and there are similar games like Shadow of the Tomb Raider. However, once you start playing the game, you will find that it is very enjoyable. This game gives a fresh experience to RPG gaming. I highly recommend this game to players who love action RPG and fantasy games. - Mytzelio89, IGN 5/5! I was originally a fan of Lara Croft, so I had to play this game. I'm not sure if it's because it's hard or if it's because I've been doing nothing for too long, but this game's difficulty is incredible. I beat the game in less than three hours, but the game has 80+ hours of content and I can't wait to play again. I've never felt this satisfied while playing an RPG game before! I can't help but feel that this game is the new standard for action RPGs. - ████████, Gamestar 5/5! I enjoyed the story and atmosphere. The story is deep enough to draw me in and keep me interested for a good while. The game has a grandiose story with many characters, and there are numerous memories to cherish. - ████████, SiliconNova 5/5! As the plot progresses, it doesn't just simply reach a predictable ending, but it adds a lot of new details to tie a lot of loose ends together, while constantly making you think about how the story is progressing and where it is leading. Both the enemies and characters display a lot of personality, so the game offers you plenty of opportunities to enjoy yourself in battle. - ████████, ██████████ 4/5! When I first got this game, I thought this game was going to be simple, and that the game would just be a simple story of "kill all". However, the game's story was surprisingly deep, and the gameplay was so immersive that I couldn't stop playing it. I was afraid that once I played this game, my excitement towards this game would be totally destroyed, but it didn't happen. bff6bb2d33
