### AutoCAD Crack+ License Key Full For PC (2022)

Since 1998, Autodesk has sold the AutoCAD software and the AutoCAD LT software, a fully functional, application-based CAD program for PC and Mac. AutoCAD 2019 is AutoCAD's latest release, which debuted in October 2018. What is AutoCAD? There are many AutoCAD tips and tricks out there and plenty of articles to explain the basics. However, if you are new to AutoCAD, this guide will teach you the basics in a simple, straightforward manner. AutoCAD is a computer-aided drafting (CAD) program for creating 2D drawings. AutoCAD is built on Microsoft Windows and macOS, and supported by AutoCAD LT (also sold by Autodesk), a workgroup drawing program that can be used for a group of users. Creating a new drawing in AutoCAD To start a new drawing, go to File > New, as shown in the figure below. Select Drawing from the Create menu (Shift+N) to open the Open dialog box. Drag and drop one of the following items onto the workspace to begin creating a new drawing: A blank drawing page (a new.dwg file) A drawing page (a.dwg file) with a drawing on it (a.dwg file) A drawing with data already on it (a.dwg file) A page and a drawing (a.dwg file) In the above screenshot, the user has dragged a new drawing page onto the workspace to start a new drawing. When AutoCAD opens the.dwg file, it automatically opens the drawing that was just created. Creating a new.dwg file To start a new drawing, go to File > New. This command will open a dialog box that allows the user to select the type of drawing (such as a drawing page, drawing, page and drawing, or a blank page) that they would like to create. Click the button and drag the item onto the workspace. If the item is not visible, hover the mouse over the workspace. The item will be highlighted. The following figure shows the Open dialog box, with the New Drawing option selected. In the figure above, the user has selected the New Drawing option from the Open dialog box. AutoC
