
Bde Delphi 2007 Download PATCHED

October 18, 2550 BC - Thursday, October 18, 2007 Delphi: How to install BDE on a client machine
Suppose you have a Delphi application that uses the Borland Database Engine (BDE) to access a
database To install BDE on a client machine, run Delphi and go to File/ New/Database/BDE
Installation This will bring up the Database Installation Wizard dialog where you can install BDE on
the client machine BDE runs under Delphi You can also install BDE in Windows 95 compatibility mode
If you have with no Windows 95 installed on the client machine, the BDE will not work.
